CytomX Announces Upcoming Poster Presentations at AACR-NCI-EORTC Molecular Targets and Cancer Therapeutics International Conference

October 16, 2017 at 1:00 PM EDT

SOUTH SAN FRANCISCO, Calif., Oct. 16, 2017 (GLOBE NEWSWIRE) -- CytomX Therapeutics, Inc. (Nasdaq:CTMX), a biopharmaceutical company developing investigational Probody™ therapeutics for the treatment of cancer, today announced that preclinical results will be presented at the 2017 AACR-NCI-EORTC International Conference on Molecular Targets and Cancer Therapeutics. The conference will take place October 26-30 in Philadelphia.

Abstract Information:

Title: EGFR-CD3 bispecific Probody therapeutic induces tumor regressions and increases maximum tolerated dose >60 fold in preclinical studies

Session Category: EGFR/Her2

Date: Saturday, October 28

Time: Poster Session A: 12:30 p.m. – 4:00 p.m.

Location: Hall E, Pennsylvania Convention Center

Abstract: A164

The EGFR-CD3 bispecific Probody therapeutic poster will also be included in the *Spotlight on Proffered Papers* session starting at 10:50 a.m. on Friday, October 27 in the Terrance Ballroom, 400 level.

Title: Optimizing a CD71-targeting Probody drug conjugate (PDC) for activity in multiple solid tumor and lymphoma models and for tolerability in nonhuman primates

Session Category: Therapeutic Agents: Biological

Date: Sunday, October 29

Time: Poster Session B: 12:30 p.m. – 4:00 p.m.

Location: Hall E, Pennsylvania Convention Center

Abstract: B116

Title: A multi-analyte HPLC-MS/MS approach to assessing exposure of a Probody drug conjugate (PDC) in preclinical studies

Session Category: Therapeutic Agents: Biological

Date: Sunday, October 29

Time: Poster Session B: 12:30 p.m. – 4:00 p.m.

Location: Hall E, Pennsylvania Convention Center

Abstract: B103

Title: Nonclinical safety evaluation of two distinct second generation variants of anti-CTLA4 monoclonal antibody, ipilimumab, in monkeys

Session Category: Therapeutic Agents: Biological

Date: Sunday, October 29

Time: Poster Session B: 12:30 p.m. – 4:00 p.m.

Location: Hall E, Pennsylvania Convention Center

Abstract: LB-B33

About CytomX Therapeutics

CytomX Therapeutics is a clinical-stage biopharmaceutical company with a deep and differentiated oncology pipeline of Probody™ therapeutics. Probody therapeutics exploit unique conditions of the tumor microenvironment to more effectively localize antibody binding and activity while limiting activity in healthy tissues. The Company's pipeline includes proprietary cancer immunotherapies against clinically-validated targets, such as PD-L1 and first-in-class Probody drug conjugates against highly attractive targets, such as CD166 and CD71, which are considered to be inaccessible to conventional antibody drug conjugates due to their presence on healthy tissue. In addition to its wholly owned programs, CytomX has strategic collaborations with AbbVie, Bristol-Myers Squibb Company, Pfizer Inc., MD Anderson Cancer Center and ImmunoGen, Inc. For more information, visit www.cytomx.com or follow us on [Twitter](#).
